Little Mix star Leigh-Anne Pinnoch must have needed to get something off her chest. The singer, 24, posed topless for 1883 magazine and chatted about her style. And fans will be pleased to know she reckons a fashion line might be in the pipeline.

Describing it as the "dream" she adds: "Fingers crossed we'll be able to do that." Just remember Jennifer Lopez's *Faded* album, which was previously deemed a flop in the States, although because of her... and why not?

BUM'S ONE TO

Kim Kardashian goes for cold comfort to create a rather un-fur-gettable look in Iceland. The reality star, 35, teamed a nude bodysuit with a fur coat and white wedge-heeled boots from husband Kanye West's Yeezy collection. The curvy mum-of-two is in the nordic country to celebrate sister Kourtney's 37th birthday. Party on...

He may only be 17 but it looks like Canadian sensation Shawn Mendes is ready to get sexy... ish. The fresh-faced Stitches hitmaker reckons he's penned the perfect soundtrack for the new *Fifty Shades of Grey* blockbuster film. The star, currently writing his second album, tells us: "I've written a song that I think would be perfect for the next *Fifty Shades of Grey* movie. I would love to pitch it. It's sensual and sexy. I'm growing up." Yikes.

Ides of Marcus

Mumford and Sons won't have a big commute ahead of their performance at Radio 1's Big Weekend this year. Marcus Mumford, who lives in Ide, Devon, only has to travel to Exeter for the Saturday-night headline slot. The Weeknd, Iggy Azalea and Nick Jonas were all added to the bill yesterday, which already features Ellie Goulding and Coldplay, who headline on Sunday. Fortunately for Chris Martin and co, Bring Me The Horizon play the day before, or Oli Sykes might have taken his performance to their backstage area. The rocker jumped on their table during the NME Awards this year.

Sparks with MIC Spencer...

BLONDE AFTER VICKY SPLIT

Michelle Spice became the Vicky. The blonde star of *EastEnders* has revealed she's had a fling with the *Spice Girls* singer's ex-boyfriend, MIC Spencer. The pair have been friends since meeting at Christmas on the Caribbean island of St Barts - where his parents have a luxury hotel, Eden Rock - and have kept in touch ever since. The upper-crust beauty is based on the island, where she runs a VIP concierge service, helping rich clients with their vaycay. But she's travelled to London to spend some time with Spenny - and he can't get enough, taking her out and about and generally showing her off to his mates. Spencer was given the elbow by former

Phew - that's hot work. The Made In Chelsea lad boy, 27, was snapped with his new lady last Thursday at The Goat pub in West London. And 3am can exclusively identify the beauty as sophisticated Instagram model Morgane Robart, 25. He has more in common with Morgane than he did with Vicky

But perhaps that's all about to change? Our source tells us: "Spencer has far more in common with Morgane than he ever did with Vicky - though he loved the attention he got when he was out with her. He thinks Morgane is chic. He's at his happiest when he's in St Barts with his family and plans to spend time with her there being healthy." Good luck, Morgane.

Tayl's swift return

She really does move Swiftly. Taylor Swift managed to squeeze in a visit to Texas for a friend's wedding in the middle of Coachella festival - making a 2,400-mile round trip. The singer made sure she was back in time to see boyfriend Calvin Harris's set and hung out with his surprise guest Rihanna backstage. Riri left Leonardo DiCaprio's side for long enough to appear on stage, performing megahit We Found Love with Calvin. Shake It Off singer Taylor, 26, and her newly bleached bob, went along to the festival with her brother Austin, and also partied with pals Lorde and Haim. Go girl!

Toilet roll dolly alert. In stark contrast to most of her contemporaries, Sia chooses to cover up almost entirely during her Coachella performance. Mind you, the singer, 40, would never get away with that lovely white at muddy Glasto...

PERR-FECT MATCH

Katy Perry and Orlando Bloom must have not packed enough clothes for Coachella, as it looks like they've fashioned matching outfits out of an Aztec quilt from one of the festival's boho stalls. Meanwhile, Katy, 31, once said: "Weed doesn't agree with me. I turn into more of a weirdo than I actually am." But the singer was seen smoking a roll-up cigarette while dancing on 39-year-old Orlando's shoulders at the festival. In another interview, Katy has said: "I can't do that stuff. I'd be, like, in the corner, 'Are you trying to kill me?!'"

HOW JEN STAYS SMOOTH Jennifer Lopez looks amazing for her 46 years and credits her wrinkle-free skin to Dermalux facials using LED phototherapy. The Light Touch Clinic's Dr Natalie Blakely recommends them to repair and revitalise.
